DRUG NAME: Testosterone Capsules

COMMON USES: This medicine is an androgen hormone that is found naturally in the body. It is used to treat hormone deficiencies, hypogonadism, breast cancer and other conditions as determined by your doctor.

HOW TO USE THIS MEDICINE: Follow the directions for using this medicine provided by your doctor. **STORE THIS MEDICINE** at room temperature in a tightly-closed container, away from heat and light. **IF YOU MISS A DOSE OF THIS MEDICINE,** take the missed dose as soon as possible. If it almost time for your next dose, skip the missed dose and go back to your regular dosing schedule. **DO NOT** take 2 doses at once.

CAUTIONS: **BEFORE YOU BEGIN TAKING ANY NEW MEDICINE,** either prescription or over-the-counter, check with your doctor or pharmacist. **FOR FEMALES:** do not use this medicine if you are pregnant. **IF YOU SUSPECT THAT YOUR COULD BE PREGNANT** contact your doctor immediately. Contact your physician as soon as possible if you experience frequent or persistent erections of the penis, nausea, vomiting, change in skin color, ankle swelling, or headache. If you notice other effects not listed above, contact your physician. There is an increased risk of developing prostatic hypertrophy and prostatic carcinoma while using this product. **IF YOU HAVE DIABETES MELLITUS** and use insulin, this medication may affect your blood sugar and insulin requirements. Check blood glucose levels closely and ask your doctor before adjusting the dose if your insulin.

POSSIBLE SIDE EFFECTS: **SIDE EFFECTS,** that may go away during treatment, include headache, mood changes, or changes in sexual desire. If they continue or are bothersome, check with your doctor. **CHECK WITH YOUR DOCTOR AS SOON AS POSSIBLE** if you experience ankle swelling, weight gain, nausea, vomiting, or change in skin color. **FOR FEMALES:** check with your doctor a soon as possible if you experience deepening of the voice, acne, absence or changes in menstrual periods, or growth of facial hair. **FOR MALES:** check with your doctor as soon as possible if you experience frequent or persistent erections, or acne. If you notice other effects not listed above, contact your doctor, nurse, or pharmacist.
